

BILL OF LADING

How can INTRA help you?

INTRA's mission is to be the preferred global e-commerce shipping platform. We combine advanced solutions for organizing and streamlining shipment processes with one simple connection to the world's largest network of ocean carriers.

Today, INTRA's platform is more relevant to ocean shippers than ever before. Over 90% of shippers use more than one carrier to meet their global container shipping needs. This requires dealing with different systems and documentation processes. At INTRA, we offer an integrated platform and the right tools to complete the task and get customer transactions done fast.

What does INTRA offer?

INTRA offers a comprehensive range of tools to help you plan, process and manage your shipments giving you the best all-round service available. The e-commerce tools are flexible and easy to use. INTRA derives its revenues from carriers seeking to adopt industry standard processes and to provide their customers with a greater level of convenience and service.

Process

Consider all the faxes, phone calls and couriers you use to process your shipments and communicate with carriers, shipping partners and consignees. Now think about all of the time re-keying and checking data, collating, searching and sharing information. INTRA helps replace these manual processes by streamlining, automating and organizing your data electronically, enabling it to be available to the parties that you designate at any time from anywhere in the world.

Bill of Lading (B/L)

Shippers and forwarders can get faster delivery of their Bills of Lading and minimize container shipment delays by using INTRA's Bill of Lading tool. INTRA's Bill of Lading solution supports a standardized process for viewing, editing and approving Bs/L from INTRA's carriers. Customers can print and share Express & Sea Way Bills and copies of Negotiables with multiple third parties. Additional features include a 90-day archive of documentation. Minimize Bill of Lading errors, maximize the re-use of validated information and achieve 100% reliability through carrier confirmation of receipt of documentation details.

Multi-carrier Bill of Lading Print Agreement

INTRA customers sign one B/L print agreement with standard legal terms and conditions accepted by all participating carriers. Until now, customers followed a separate approval process and signed separate legal agreements with each carrier. This meant customers with many carriers faced a daunting amount of paperwork. With INTRA, customers benefit from one standard process.

B/L benefits include:

- Provides standardized process for electronic documentation with multiple carriers
- Enables earlier import filing process
- Improves consignee visibility via notifications and information sharing features
- Improves workflow process and reduces paperwork
- Improves data accuracy to reduce extra charges for amendments to import documents

Bill of Lading features include:

- Multi-carrier inbox for all participating carrier Bills of Lading (Bs/L)
- Visibility of all your Bs/L through INTRA whether booked directly with a carrier or through INTRA
- B/L viewing, editing and approval process
- Sharing of Non-Negotiable copies and Express & Sea Way Bills to multiple parties
- Customer receives email notification of B/L receipt
- Immediate B/L draft print upon final customer approval
- Historical 90 day archive

INTRA Carrier network

If you use any one of these carriers, we can help you manage your shipments more efficiently

Our carrier network is expanding rapidly. Please contact INTRA's local sales office or visit www.intra.com for the latest list of participating carriers.
