

REPORTS

How can INTRA help you?

INTRA's mission is to be the preferred global e-commerce shipping platform. We combine advanced solutions for organizing and streamlining shipment processes with one simple connection to the world's largest network of ocean carriers.

Today, INTRA's platform is more relevant to ocean shippers than ever before. Over 90% of shippers use more than one carrier to meet their global container shipping needs. This requires dealing with different systems and documentation processes. At INTRA, we offer an integrated platform and the right tools to complete the task and get customer transactions done fast.

What does INTRA offer?

INTRA offers a comprehensive range of tools to help you plan, process and manage your shipments giving you the best all-round service available. The e-commerce tools are flexible and easy to use. INTRA derives its revenues from carriers seeking to adopt industry standard processes and to provide their customers with a greater level of convenience and service.

Manage

INTRA's platform offers access to powerful reporting and information sharing tools for customers to find the information they need, when they need it.

Reports

INTRA Reports present multi-carrier logistics information from a single source, at any time (24/7), in standardized, comparable formats. With INTRA self-service reports, you can find shipment information based on a wide range of criteria and tailor searches for your shipments by carrier, vessel/voyage, origin, destination and much more. The reports can be integrated into the workflow of your shipping partners to enable sharing of data. It's one of the best ways to analyze and share valuable information that would otherwise have taken hours to find and compile.

Reports benefits include:

- One source for compiling shipping information for multiple carriers
- Standardized transactional reports making data comparison easier
- Ability to view all bookings with any carrier in INTRA's carrier network including bookings made directly with carriers
- Access to a global picture of activity for all subsidiaries
- Better organization of data reducing the time spent finding and collating data
- Option to download reports into Excel for further analysis or import into your own systems
- Support for more efficient management of Supply Chain Processes and Inventory Management
- Convenient self-service access, 24/7

Reports features include:

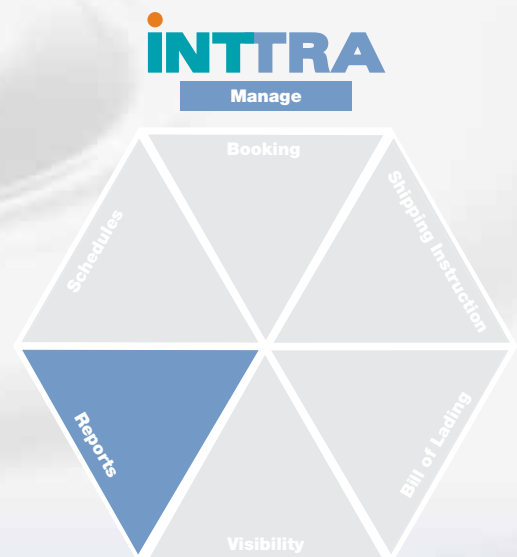

- Data for bookings and shipping instructions are incorporated into logistics and management reports
- Ability to share information with all shipping partners
- Standardized report content, format and output
- Ability to customize user selection criteria
- Reports run concurrent with other tasks
- Historical information available for retrieval
