

About OceanSchedules.com Search

Search Ocean Schedules Faster

OceanSchedules.com offers powerful search tools and the richest global set of schedules data available online or in print to help you find the voyages you are looking for more quickly and easily. The site uses innovative web-based technologies to make searching schedules easier than ever before and this is the first site that integrates schedule search with the option to make an electronic booking with multiple carriers.

OceanSchedules.com Includes Comprehensive Voyage Listings

Search over 8,000,000 voyage schedules from 26 of the world largest carriers. All schedules are electronically delivered by the carriers, so you can count on their accuracy and timeliness.

Powerful Search Tools

Simple home-page search box:

Search by vessel, port to port, point to point, arrival or destination date and customize date range from 1-week default setting. When you type in your origin and destination, watch how the auto-suggestion feature helps you find the right name for the location after you type in at least three characters.

Powerful Schedules Manager to filter and sort your information:

The Schedules Manager allows you to interact with data, giving you:

- A count of the number of matches to your search criteria
- Click-and-drag sliders that automatically re-calculate and display your search by departure date range, arrival date range and transit time
- Interactive filters for day of the week for departure and arrival
- Interactive filters for port selection (when multiple adjacent ports are available)
- Interactive filters for carrier selection

Preferences

A registered user can identify their preferred carriers and preferred arrival/departure day of the week in Preferences, and Schedules Manager automatically filters results by these important parameters.

Easy-to-use

The results page includes more information about each matching result and buttons for requesting more information from a carrier.

Each results page includes

Carrier results

Carrier name, departure date and time, day of week, transit time, arrival date and time and day of week.

Carrier Information button

Carrier name, vessel, voyage, Lloyds number and carrier website.

Carrier-Contact-Request button

Click to request that your selected carrier contact you about a specific voyage (for carriers that support this feature).

Booking button (registered INTRA users only)

Make an electronic booking on your selected voyage for all carriers that support bookings via INTRA. OceanSchedules.com and INTRA have created a strategic partnership that provides this functionality to anyone that is pre-registered in INTRA with the specified carrier.
