

TRACK & TRACE

How can INTRA help you?

INTRA's mission is to be the preferred global e-commerce shipping platform. We combine advanced solutions for organizing and streamlining shipment processes with one simple connection to the world's largest network of ocean carriers.

Today, INTRA's platform is more relevant to ocean shippers than ever before. Over 90% of shippers use more than one carrier to meet their global container shipping needs. This requires dealing with different systems and documentation processes. At INTRA, we offer an integrated platform and the right tools to complete the task and get customer transactions done fast.

What does INTRA offer?

INTRA offers a comprehensive range of tools to help you plan, process and manage your shipments giving you the best all-round service available. The e-commerce tools are flexible and easy to use. INTRA derives its revenues from carriers seeking to adopt industry standard processes and to provide their customers with a greater level of convenience and service.

Manage

INTRA's standardized data format and organization make it easier to share information between customers and their carriers, increasing the visibility of your in-transit containers.

Track & Trace

INTRA helps you manage your supply chain around the world. For each container shipped, INTRA offers a standard set of status events including by date of receipt, vessel loaded, departed and arrived. Our advanced search capability enables users to search by booking, container or reference number, carrier and date range. Additional special features available to registered users include user specific searches and customization for one-click quick searches by: container number, purchase order, B/L, INTRA booking number, ocean carrier reference number or booking reference. Using INTRA's Track and Trace will give you greater control and visibility over your container shipments and help you monitor the services provided by your partner carriers.

Track & Trace benefits include:

- Global visibility of in-transit container cargo from origin to destination
- Ability to view bookings for any carrier in INTRA's carrier network, including bookings made directly with carriers
- Standardized data organization to enable easy consolidation of multi-carrier data
- Faster workflow processes that increase efficiency
- Unified view of all in-transit container cargo regardless of the carrier
- 24/7 access for greater convenience

Track & Trace features include:

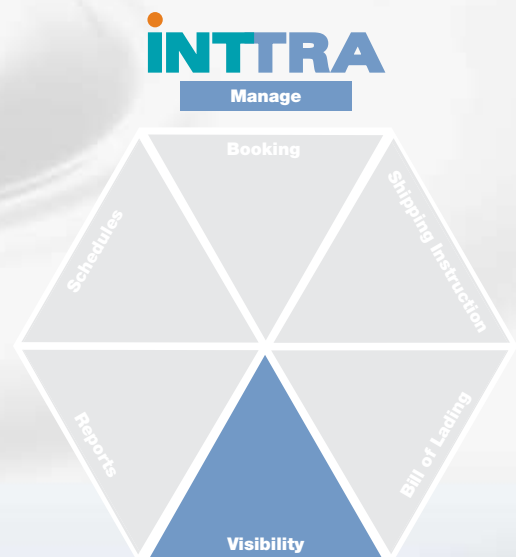

- Standardized container status events
- Search by booking, container or reference number, carrier and date range
- Summary views with last event shown
- Ability to drill down for more information
- Ability to set user preferences
- Customization of search criteria

INTRA Carrier network

If you use any one of these carriers, we can help you manage your shipments more efficiently

Our carrier network is expanding rapidly. Please contact INTRA's local sales office or visit www.intra.com for the latest list of participating carriers.
